Summary

Design, Creativity, Evolution and Inclusion are the keys of our project. We will work a social wall painting and through photography, collage and imagination we will create and design a fanzine and a calendar that can accompany us throughout 2020 and that can remind us of our journey during the last 10 years. The freshness and the contribution of the campers with the orientations of the staff. . . they will do the rest.

Description

Partner:

ATADI is a non-profit organization dedicated to social services to the community and especially to taking care of intellectual disability people and/or at risk of social exclusion. So, during the work camp, most of the times we will carry out activities which include people with intellectual disabilities.

If you value Creativity, you like the scene world, you enjoy the people, you would like to know and approach to the disability, be in the rural world, and a large dose of coexistence...

This is your place !! Your solidary summer!!

Work:

Design, Creativity, Evolution and Inclusion are the keys of our project. We will work a social wall painting and through photography, collage and imagination we will create and design a fanzine and a calendar that can accompany us throughout 2020 and that can remind us of our journey during the last 10 years. The freshness and the contribution of the campers with the orientations of the staff... they will do the rest.

1. Elaboration of the artistic mural in a central place in Alcorisa and / or high visibility:

- Design of main ideas for its development.
- The idea and design of the campers together with the collaboration of the public will serve to create the final mural.
- Encourage the creativity of volunteers and people with Intellectual Disability.
- Create a mural that lasts over time and contributes to a change of image of the environment.

2.- Development of a Fanzine / Calendar:

These two communication supports will be developed through different techniques such as:

- Tell ideas through collage images
- Cropped photographs
- Dialogues with balloon written by hand or cut out of texts.
- Stories with meaning that can be part of a calendar or be only a dossier / comic to remember.
- Layout, printing, binding and digitalization.

An added value that we can give to this "Product" is to turn it into something supporting, that in some way, there may be copies for sale that empower the work of volunteering and the application to a purpose that aims to impact society make it more inclusive. Question that will be assessed once the field of work is completed.

Accommodation and food:

The volunteers will be located in CRIET (An educational innovation center of the province of Teruel) in Alcorisa. It is an educational resource with accommodation and has places distributed in community rooms and areas for staff. The center also has a spacious dining room, living room, game room, wifi area and access to the gym and sports facilities. The sheets and towels will be provided for free. There is no need to take sleeping bags.

There will be homemade food provided (breakfast, lunch and the dinner)

Every day, local cooks will prepare homemade food, which is based on Mediterranean diet, with the possibility to adapt it to any specific diet. The youths will be divided in shifts groups to help in the dining room.

Location and leisure:

ALCORISA (www.alcorisa.org) is a village with 3.700 inhabitants, placed in the Region of the Low Aragon, where the common language spoken is Spanish. The village center is near the Guadalopillo River and at the foot of the Sierra del Caballo, where are many caves. The area is surrounded by olive trees, crop plants, peach trees, small trees, pine forests and a variety of aromatic plants.

There are many places of cultural interest: The Monte Calvario where every year there is performed the Cross Drama during Easter. The Gallipuen swamp, The Park of the Guadalopillo river, la Pena de San Juan, etc.

The campers will have the opportunity to choose the activity from the following list: Teruel and Albarracin, Alcaniz, Cultural Park in Maestrazgo, Crystal Caves of Molinos, hiking activities in the pools of river Bergantes in Aguaviva, Berge, Alcaniz Lake, Region Matarrana. Mine museum and hiking by river Martin.

- Visits: Iberian Museum, Museum School and Easter Museum of Alcorisa. Excavation Site "El cabo" (Andorra)
- Meetings with youth from Alcorisa to know their customs, traditions and leisure activities in summer.
- Participation in an activity of children's entertainment in Alcorisa
- Elaboration of a community activity with massive participation.
- Organization of an accessible activity for people with intellectual disability.
- Festive (celebration) activities in the close area.

Requirements:

None in particular.
