Remarks

The "Feira de Canteria, Callos e Artesania" is a festival in which stonemasons from all Galicia participate in the contest. You can enjoy dramatized visits to different emblematic places in the village. It is a tradition to eat "callos" (typical food of Galician gastronomy), all this animated by performances of local groups of traditional music.

The "Festa da torta de millo" is a celebration to enjoy gastronomy, crafts and traditional Galician culture. The traditional music represented by the band of bagpipes of the town hall and guest artists, fills the place with a traditional atmosphere that invites to participate in popular games.

The gastronomic side is reserved for the two tastings of the famous "Torta de Millo", the culinary emblem of Guitiriz. In addition to the dessert contest made with natural ingredients. All this accompanied by a sample of crafts and workshops of ceramics, loom and stone.

How to get
