

Schloss Glarisegg in Steckborn, Switzerland 2021

(2 volunteers for 11 months starting in January 2021)

Description:

We can offer **two** vacancies from the **1st of January 2021** until the **30th of November 2021**. The project is about working in the permaculture garden of our ecovillage in North-eastern Switzerland, as well as living in the ecovillage. We are an intentional community of approximately 35 adults and 15 children, situated directly between the shore of a beautiful big lake and a forest – and still close to nice cities. For further information please visit:

Experiences by former EVS volunteers:

The main voluntary work within the project is about permaculture gardening. Most of your working time, you will be involved in the garden, preparing beds, sowing, planting, harvesting, looking after our ducks and chickens, etc. You will experience one entire season from the beginning to the end. It is a great opportunity to learn about gardening, self-suppliance with vegetables and permaculture. It will be the fifth time for us to welcome volunteers and we are really looking forward to you. We have seen how volunteers profit a lot from their experiences when they stay with us. Many say that they learn a lot about themselves, about communication and about living and working

Requirements:

You are between 18 - 29 years old and available for the full 12 months. You have good knowledge in English and German plus ideally also in French or Italian. You share SCI values, are motivated for the work with young people and volunteers from different cultures, and interested in office work!

Please write to evs@scich.org if you are interested in becoming an Erasmus+ volunteer or if you have some questions. Please note that you can only apply if you are between 18-29 years old and if you have not volunteered through the Erasmus+ before.
