SHORT TERM VOLUNTEER PROJECTS (Work-Camps)-2022

1.0 ABOUT US

UVIKIUTA is a Development Organization that values volunteerism as a tool for sustainable development. The organization was established in 1983 to respond to the needs of young women and men to raise their living standards through developing and enhancing social and economic capacities. Our goal is to contribute toward building sustainable and self-reliant communities through providing holistic experience that broaden minds, expand horizons and empower young people and their communities to realize their full potential as productive, responsible and caring citizens. UVIKIUTA-Tanzania is a founder member of the Eastern African voluntary service Network (EAVS-Network), formally EAWA, Long term partner with Service Civil International (SCI), ALLIANCE and NVDA. We work also very close with Various Government Departments, United Nations programs, various local and International higher learning institutions, Non-Government and Community based organizations.

5.0 SHORT DESCRIPTION

Project code: UV.STV.01	Project name: Sustainable development Goals (SDG) Advocates		
Starting date: 7 th July 2022	Type: ENVI-EDU-SOCI	Language: English & Kiswahili	
Ending date: 21 st July 2022	Location: Marangu- Kilimanjaro	Disabled: Yes (Provide details)	
Number of Volunteers: 8	Age: 16 - 99	Vegetarian meals: Available	Remarks: None

PROJECT DESCRIPTION: The Sustainable Development Goals (SDGs), otherwise known as the Global Goals, are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity. These 17 Goals build on the successes of the Millennium Development Goals, while including new areas such as climate change, economic inequality, innovation, sustainable consumption, peace and justice, among other priorities. The goals are interconnected – often the key to success on one will involve tackling issues more commonly associated with another. The SDGs work in the spirit of partnership and pragmatism to make the right choices now to improve life, in a sustainable way, for future generations. The goals provide clear guidelines and targets for all countries to adopt in accordance with their own priorities and the environmental challenges of the world at large. Realization of these goals by 2030 will depend much on various factors on which Grassroots ownership is one of them. This International work camp is therefore aiming to make contribution through nature conservation activities. It is also a platform for volunteers and other interested members to become stimulated to contribute their own ideas and energies, thus contributing to live debates on sustainable issues.

PROJECT ACTIVITIES:

A: Nature conservation

- Establishment of Tree Nursery: Filling pots/bags with soil and manure ready to put seedlings to grow trees for the next seasons planting, watering and routine caring of the Tree nursery.
- Establishment of Organic garden: Establishment of composting site, Collection of various medicinal plants and identification of potential uses, planting and insert labels for educational purpose.
- Biodiversity documentation: Volunteers will be involved in identification or tree species, animals and birds around and establish records for education and conservation purpose. (This may include photos, short descriptions etc.)

PROJECT DESCRIPTION:

When a child is born, a dream is born. Children come with various gifts for their lives, their parents, community and the world. However due to various social, cultural and economic factors not all children manage to arrive at the desired destinations. Developing urban centers brings children from various social and economic backgrounds living and sharing. It is very easy for children to adapt to another culture or having their dream crushed. Some Children has been negatively/positively affected by family relations, media, teachers' environment around them etc. This project is therefore aiming to discover Children's dreams and how they can possibly be supported to realize their full potential. The project will work on four aspects:

- Explore: Exploring various dreams among the children (Some kids want to become doctors, farmers, politicians etc.
- Understanding: Try to understand factors associated with their dreams, are they real, how they are walking in their dreams etc.
- Challenge: what challenges or limitation are they facing in realizing their dreams?
- Act: Possible support and actions required from Parents, Teachers and others in supporting the children to rich at their higher point.

PROJECT ACTIVITIES

a) What are the activities

Volunteers will be engaged in the following outlined activities: -

- Organize social activities for Children in the community (6-15years) after school hours. E.g. sports, games, support their academic development, language, social skills, arts, craft, coloring, music etc.
- Collecting stories: Dreams of Children; who do they want become in future, why and how they planning to be there, possible barriers etc.
- Inspiring: To organize activities which will give the kids power and courage to move forward; this could be through playing roles of the position they would like to be, talent shows, listen or watching successful stories from the volunteers, community members or through videos.
- Dream stories record: Collect stories and photos of the kids with their dreams to be share by their parents and school to support the kids to realize their life wishes through various social and academic initiatives.

- Give hand to the proposed day care & Nursery school project through painting and wall drawings.

PROJECT DESCRIPTION

Community leadership project is an initiative aiming to build skills and support the development of emerging leaders through a series of seminars, workshops and other local projects. The programs seek individuals who want to improve their community, and give voice to traditionally under-represented community members. The project focus is to aid the development of grassroots innovations, which operate in niches and require nurturing. Community leadership benefits from being embedded into social networks, shared vision and decision making, but pre-existing skills and tacit knowledge also play a role. Example of leaders expected to be part of the project include local religious leaders, community activists, school officials, and local business leaders.

PROJECT ACTIVITIES

- ❑ **Community Service (Hands-on activities):** Joining physical volunteering activities organized by and for the community. Eg. Cleaning, tree planting, renovation of public facilities etc.
- ❑ **Workshops:** The workshops offer exciting new insights into leadership principles and practices will be presented by experienced leaders from various sectors that are skilled at translating principles and concepts into practical ideas and techniques. You will be exposed to cutting edge research into leadership, as well as into brain functioning and how leaders can best support and encourage your community, and will leave the workshops with the skills to implement improvements in your own leadership practice.
- ❑ **Workplace Project/Educational tour:** Volunteers will have an opportunity to join the local community members (Those in the program) on their daily community work and share some practical realities. This will be in the sectors of local Government Management, Local community Schools, Businesses, Social and cultural activities. This activity will provide and give new and emerging leaders the opportunity to embed their learning and put their new knowledge into practice.
- ❑ **Various sports:** With the aim of providing the experience of being a team member and developing leadership skills.

Ending date: 18 th Nov.2022	Location: Marangu- Kilimanjaro	Disabled: Yes (Provide details)	
Number of Volunteers: 8	Age: 16 - 99	Vegetarian meals: Available	Remarks: None

PROJECT DESCRIPTION: The Sustainable Development Goals (SDGs), otherwise known as the Global Goals, are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity. These 17 Goals build on the successes of the Millennium Development Goals, while including new areas such as climate change, economic inequality, innovation, sustainable consumption, peace and justice, among other priorities. The goals are interconnected – often the key to success on one will involve tackling issues more commonly associated with another. The SDGs work in the spirit of partnership and pragmatism to make the right choices now to improve life, in a sustainable way, for future generations. The goals provide clear guidelines and targets for all countries to adopt in accordance with their own priorities and the environmental challenges of the world at large. Realization of these goals by 2030 will depend much on various factors on which Grassroots ownership is one of them. This International work camp is therefore aiming to make contribution through nature conservation activities. It is also a platform for volunteers and other interested members to become stimulated to contribute their own ideas and energies, thus contributing to live debates on sustainable issues.

PROJECT ACTIVITIES

A: Nature conservation

- Establishment of Tree Nursery: Filling pots/bags with soil and manure ready to put seedlings to grow trees for the next seasons planting, watering and routine caring of the Tree nursery.

- Establishment of Organic garden: Establishment of composting site, Collection of various medicinal plants and identification of potential uses, planting and insert labels for educational purpose.

- Biodiversity documentation: Volunteers will be involved in identification of tree species, animals and birds around and establish records for education and conservation purpose. (This may include photos, short descriptions etc.)

B: Education & Awareness

- Environment Information & Education: Assist in Organisation of actions that will allow community members to explore environmental issues, engage in problem solving, and take action to improve the environment. This will develop a deeper understanding of environmental issues and have the skills to make informed and responsible decisions.

- Global Sustainable development goals Education and awareness: This activity aims to inform volunteers, community members and all targeted about Sustainable development goals, mobilize great support for action for SDGs grassroots participation and providing tools to engage critically with global development issues to foster ideas and change attitudes. This will be implemented through workshops, debates, discussions, educational tours, community events, Music, Arts, Sports and other creative methodologies.

ACCOMODATION: Volunteers will be accommodated at the community residential house located along the slopes of the Mount Kilimanjaro. Mattresses will be provided in shared rooms.

FOOD: Food will be provided for free at the project site. Volunteers with special dietary requirements should inform us well in advance. Volunteers are expected to help in preparation of the meals and. Note: Food will not be provided outside designated project area.

PROJECT LOCATION: The word "Marangu" means a place with too many water streams. It is one of the most popular places in Tanzania. Located at the foot of Africa's tallest mountain, the quaint village of Marangu offers fascinating insight into both modern Tanzanian life and into the lives of the Chagga people who once withstood vicious Maasai raids through the ingenious use of tunnels. Many Marangu residents are farmers growing bananas, vegetables and coffee. However, the biggest source of income is tourism. The Marangu route is the most popular hiking route in Africa. The facts and reality of Marangu makes this place accessible with all social, economic and security facilities. You will not regret to be in Marangu, Kilimanjaro.

FREE TIME ACTIVITIES:

- Cultural & Eco-tourism around Chagga communities in Kilimanjaro, Maasai in Arusha and the neighboring regions.
- Hiking – there is a possibility of hiking in Kilimanjaro Mountain’s nature forest.
- Wild-life safari – Ngorongoro Crater, Lake Manyara and Tarangire National parks.
- Mountain Climbing – Mount Kilimanjaro, Meru and others.
- Water side relaxation – Lake Chala, waterfalls etc.

SPECIAL REQUIREMENTS:
