ORGANISATION	The Build-It Festival is a unique and interesting event that combines hands-on building activities with a focus on sustainability and environmental awareness. By giving attendees the opportunity to learn new skills and create something from recycled materials, the festival not only provides a fun and creative experience but also helps

promote the importance of reducing waste and conserving resources.

In addition to the building activities, the festival also features music and concerts, workshops, talks, and camping by the sea. It's a perfect escape from the city and an opportunity to connect with people.

Last year, the festival saw 800 attendees, and this year the organizers are hoping for even more.

The Build-it Festival is made possible by a dedicated crew and many volunteers. During the festival week, all attendees help, which creates a unique co-ownership of the festival and the overall festival experience. Furthermore, the festival is located at Grobund Factory, which is a community of entrepreneurs and a soon-to-be eco-village.

WORK

The aim of the Work Camp is to help create the best possible Build-it Festival.

Day 1-12: During this period, the volunteers will be setting up the festival by sorting wood, moving materials around, and making signs and decorations for the festival. You will also be working in the building area, bar, outdoor kitchen, dishwashing area, toilets, sleeping area, and music stage. During this period, the volunteers will take turns in cooking for each other.

Day 13-18: During this week, the festival will take place. You will be working in different areas of responsibility. The areas are "check-in zone," "kitchen", "tool shop" and "many hats". There will be a possibility for you to create your own workshop too and to build something. You will be able to enjoy all concerts every night, we have a lot of nice music planned - especially if you like to dance. The festival will also need one or two volunteers to work with taking photos and videos for social media posts.

Day 20-23: During this week, you will be taking the festival apart, and cleaning up the festival area. Focus on zero waste and sustainability means that you will be saving building projects for next year's festival. You will also be evaluating the Work Camp stay and the festival in general.

Days off: day 1, day 5, day 9, day 12, day 16, day 19, day 23 (evaluation and fare-well party)
