About us:

Lunaria is a *nonprofit association for social promotion*, secular, independent and autonomous from political parties, established in 1992.

It promotes peace, social and economic justice, equality and ensures the rights of citizenship, democracy and grassroots participation, social inclusion and intercultural dialogue.

Lunaria practices and promotes processes of social change locally, nationally and internationally through advocacy, political and cultural animation, communication, non-formal education, training and research, information and awareness campaigns and the networking.

Mobility and international volunteering, youth policy, migration and the fight against racism, public policy analysis budgetary, economic and social sustainable development, fight against inequality, are at the center of its social commitment.

Every year, Lunaria involves around 1000 young volunteers in its programmes, including workcamps, youth exchanges, medium and long term volunteering. This is possible thanks to the collaboration with the organizations of the Alliance of the European Voluntary Service Organizations and to the Italian network coordinated by Lunaria, where local groups, associations, cooperatives and municipalities can plan and implement international voluntary services projects.

“We ask the international volunteers to commit themselves in the mission of the hosting projects, having an **open mind**, and arriving aware that the accommodation conditions may not be suitable for those looking for cheap and comfortable holidays. Every project is made by many factors, and we need from the volunteers a problem-solving approach.”

The workcamp is coordinated by an experienced volunteer, who is not the boss of the camp: we ask the camp-coordinators to ease the first days of the camp and to involve the volunteers in being responsible for the project, using consensus methodology. The camp-coordinator is not at all responsible for volunteers' fun and the best camp has a camp-coordinator who slightly goes back to the status of normal volunteer.....So, prepare to take responsibilities!

PARTNERS : ALA Associazione Liberi Artigiani – organization active since 2009, work to develop educational framework and workshops specializing in activities for youth and adults in the rural areas. The focus of its work is in Sabina, an agricultural area north of Rome (40km) where it has made local development and youth policies its main vocation. The methodology and the educational approach mixes non formal methods, art, creativity, and outdoor practices.

PROJECT : The association works to build an idea of an inclusive educational community where everyone has the opportunity to find the space to express themselves, outside of any judgment, social or political. On a daily basis it deals with youth aggregation, active citizenship, reception and receptivity, and local development for the purpose of sustainable tourism. This project takes place at Rifugio il Trio, a new space that the association is aiming to redevelop starting from the renovation of the spaces. This camp will be one of the first held in this facility and the restoration work will focus on restoring the dormitory areas. The management of a refuge is an act of care for this rural area, offering an active presence in the mountain area and facilitating access to the hinterland for everyone. The ordinary management of the refuge requires constant maintenance and renovation, which is why the camp focuses on this space, on the one hand offering volunteers the experience of living in a mountain refuge in its wildness and using this space as a place of experimentation were expressing one's creativity and rediscovering the value of manual skills and traditional knowledge. By joining this workcamp you will contribute to the Sustainable Development Goals: **Reduce inequality -SDG10 and Sustainable Communities-SDG11**

WORK : The days will be structured by including a part of manual work and redevelopment and maintenance of the space and area. In particular, the main body of work will be aimed at restoring the dormitories. Volunteers will work around 5/6 hours a day. As always, there will be space to give vent to

creativity and much more. Group life, shared management of cooking, cleaning and convivial moments including games, excursions and other experiences. This camp requires a high sense of adaptation, the ability to disconnect from digital devices and the internet connection, the desire to disconnect from everyday life to connect with a life more in relationship with the people around you and nature.

ACCOMMODATION AND FOOD : The group is accommodated in a tent, in the camping area around the refuge. The shelter and the spaces inside are used by the staff for cooking and rain emergencies. Scarcity of resources, spartan accommodation, with shared bathrooms and outdoor showers. Cleaning and cooking will be managed by the volunteers themselves through cleaning/cooking shifts. The group will have access to a pantry based on which to build a weekly menu respecting allergies/intolerances and particular diets.

LOCATION AND LEISURE : Rifugio il Trio is located near Poggio Catino, a small village in the Province of Rieti in the Italian region Latium. It is located about 50 kilometers northeast of Rome and about 20 kilometers southwest of Rieti. LUNAR03 "Cleaning the coast of Giglio", Isola del Giglio (Tuscany), 13/05/2024-26/05/2024

ENVI/MANU VOLs: 12 AGE: 18+

SUMMARY : *An amazing opportunity to support the local community by cleaning the Mediterranean coast of the beautiful island of Giglio and enjoying the seaside life! #lunarcamp #teamspirit #enviprotection*

The Pro.Loco promotes the workcamp in collaboration with the municipality and a network of associations in the area: Lega Navale, Giglio Ambiente and a Consortium of local waste companies, which work together every year to clean the island's coastline.

PROJECT : The Mediterranean Sea, although constituting less than 1% of the planet's water surface, is the sixth area of accumulation of waste in the world. Plus, during winter storms, waves dump an important amount of waste, mainly plastic. And an Island like ours, which lives mainly on tourism, the care and maintenance of its natural resources is the first ticket to see, as well as the minimum requirement to allow our visitors to live the fantastic experience they deserve. The objective of this project is to reduce the waste on the island's coast which would benefit the environment and tourism. By joining this workcamp you will contribute to the Sustainable Development Goals: **Climate Action-SDG13; Life below water-SDG14.**

WORK : Volunteers will be asked to collect wastes along the coastline of the island during the project. The activities will be concentrated mainly in the morning hours. The volunteers, together with local groups, will

carry out various activities: cleaning the beaches, collecting plastic material (bottles, polystyrene boxes, corks, abandoned fishing tools) for disposal. Volunteers will be accompanied to the places of collection of waste either by car, or on foot along the paths of trekking, or by sea with boats, while the waste will always be collected and brought to the dump by sea by specialized personnel. Please, be prepared for a physically demanding work.

ACCOMMODATION AND FOOD : Volunteers will be hosted in a flat with shared rooms. All supplies will be guaranteed, 3 bathrooms/showers, wi-fi connection, use of washing machine and kitchen. The volunteers will take care of the common areas and prepare meals. Vegetarian food is available.

The Island of Giglio, situated opposite Monte Argentario, covers an area of 21 square kilometers, is the second largest island in the Tuscan Archipelago and is renowned for its natural beauty: the crystal-clear emerald sea, with its rich and fishy seabed, frames an area that is still 90% wild. In addition to its natural heritage of beaches and coastline, the island has two towns, Giglio Castello, a charming medieval village that stands on the heights of the island, and Giglio Porto, the island's only port, small and picturesque, with multicolored houses and a clear sea. Isola del Giglio has a resident community of about 1000 people, mainly engaged in tourist activities, strongly linked to their territory and always used to dealing with new visitors. **TERMINAL :** The nearest airport is Leonardo da Vinci in Rome Fiumicino, the railway station is Orbetello Scalo. Giglio Island can be reached by ferry from Porto Santo Stefano (1 hour). It takes 4 hours to reach the island of Giglio from Rome Fiumicino airport.

SPECIAL REQUIREMENTS : Volunteers will support coastal cleanup; we recommend that you know how to swim and not get seasick. Some activities will be by boat

LUNAR31 "Agape 5", Prali 28/08/2024-08/09/2024 MANU VOLS: 5 AGE: 18+

SUMMARY : *Join Agape, a place where you can share an intense community spirit in beautiful natural surroundings. Support local volunteers in managing the Centre with very different tasks. Don't miss this enriching human opportunity. #lunarcamp #interculturalism # sharing #communityLife #mountains*

PARTNER : It's been ten years that Lunaria and Agape are working side by side to create a space where people can meet in harmony. Agape International Ecumenical Centre is an important point of reference in Italian Protestantism, being for 70 years a place of education and development, theological exploration, political engagement, acceptance and validation of differences. A resident group still lives at Agape throughout the year. Agape was built after the Second World War as a sign of hope and reconciliation between people, thanks to the voluntary work of many young men and women. The dimensions of community and voluntary service remain fundamental. By joining this workcamp you will contribute to the Sustainable Development Goals: **QualityEducation-SDG4** and **GenderEquality-SDG5**, two of the pillars of Agape mission.

PROJECT : Every year many people, with different ages and religious, cultural and political backgrounds, come to Agape to discuss and to be challenged, to get to know themselves and each other and to exchange experiences around a particular theme. The work camp will support the management and support the meetings on issues of political, social, cultural and religious interest. The center is volunteers-driven, and its management is in your hands.

WORK : The workcamp is an international experience, giving the volunteers the opportunity to meet young people from all over the world. In terms of communication, the main watchword at the Center is diversity and open-mindedness. This is your chance to discover different cultures, and ideas and exchange experiences. The work accomplished on each camp is very important, the volunteers themselves are the main reason for Agape is able to keep organizing more and more projects every year. Thanks to a group of

people living there all year long (the so-called Resident group), but also to the ecumenical and international community coming to help, the center has an effect on its visitors' life. As a volunteer, you will be asked to work with the Resident Group. Every Resident has a sector for which they are responsible (kitchen, cleaning, bar, maintenance,... and so on), in which you will help them, and each of the Residents will be there to help you and support you. You will have 6-7 working hours per day. The Centre will organize every year's national camps in the place and the international group will work in parallel with the permanent residence to guarantee the running of all other project schedules. Volunteers will help in the following tasks: kitchen, meal service (tables and dishes), cleaning, maintenance, bartending, and babysitting.

ACCOMMODATION AND FOOD : Volunteers will be host in 3-4 bed bedrooms with shared toilets on the floor. The meals are typical Italian Mediterranean cuisine, with limited consumption of meat for environmental reasons, and the possibility of choices for those who require a special diet. There is a washing machine available for the volunteers.

LOCATION AND LEISURE : Agape is in the Alps, close to Prali commune. Games, discussions, and outings can be organized during free time. Programmed activities (especially in the evening) are most of the time open to the volunteers, as long as they do not clash with work commitments. The place is beautiful but isolated, though you will stay together with many international participants attending the meetings of Agape. **TERMINAL** : Torino-Caselle airport, and then Caselle Aeroporto train station.

SPECIAL REQUIREMENTS : Volunteers should come ready to accomplish each task and with an open mind. Travel to Agape can be complicated, very isolated place .

LUNAR07 "Crack Fest", Rome, 15/06/2024-26/06/2024 FEST/MANU VOLS: 10 AGE: 21+ EXTRA FEE:20€

SUMMARY : *Join the staff of Crack Festival and support them through it! Explore and immerse yourself in the world of comics and have an amazing experience! #lunarcamp #csoaforteprenestino #comics #workcamps*

PARTNER: The workcamp is organize by Forte Prenestino Social Center, in Rome. Forte Prenestino is one of the most important alternative cultural and social project in Italy. It was squatted more than 30 years ago, and now is the promoter of many cultural underground events, hosting an alternative community of artists, activists and social workers. The center has become a place of cultural production, autonomously managed and economically independent. The main goal of their work is to bring together understanding and action; social rights and voluntary activities; the local and the global. They promote not-for-profit projects, which could be useful for the local communities, fight racism and increase intercultural exchanges.

PROJECT : The "Crack" International Comics Festival is organized every year by Forte Prenestino Social Center, in Rome. Crack festival will involve editors and artists coming mainly from European and Mediterranean countries: 4 days of exhibitions, workshops and cultural exchange will involve hundreds of youngsters and experts. By joining this workcamp you will contribute to the Sustainable Development Goal: **SustainableCommunities-SDG11**

WORK : During the festival, the place is going to host hundreds of artists and thousands of spectators, so the international volunteers will be asked to join the local volunteers to manage the entire organization of the event. An average of 6 to 7 hours per day is required, with possible activities organized on the event nights. The volunteers' work is going to involve : the logistic set up, the pub & restaurant tending, the cleanup and other activities proposed by the organizers. After the event, the volunteers will help taking down the structures and cleaning the fortress. The work can be physically hard (and it will be very hot), but the environment will be funny and easy going. The motto is to "Share, Work and Have Fun". In a few words, get ready to be active and to give your energy to the community working at the Forte Prenestino.

ACCOMMODATION AND FOOD : The volunteers are going to sleep in a dormitory, yet they will have to

bring a sleeping bag. During the festival, they can possibly be asked to sleep a few nights in tents. Please, take good note that the accommodation is really basic. Hand in hand with your team-mates, you will have to clean and to prepare the dorm at your arrival. Consequently, we want you to be aware that the comfort on the camp will be simply basic. The toilets will be collective and they are not what we could call *de luxe*. As for the showers, they will probably be outside (open air showers), so don't forget your swimsuit/swimming trunks. Regarding the meals, the volunteers are going to use the kitchen for breakfasts and will have meals at the restaurant: they will be asked to help the cooks.

LOCATION AND LEISURE : The Camp takes place in Rome. Forte Prenestino Social Center is located in one of these fortresses around the city, in a big working-class neighborhood called Centocelle.

TERMINAL : Fiumicino Rome airport + train or shuttle bus to Termini Station / Ciampino airport + shuttle bus to Termini Station.

REQUIREMENTS : To be open minded and ready to live in an alternative community. This project requests a motivation letter and to sign an agreement to confirm the understanding of the project. Expect a very very basic accommodation.

EXTRA FEE : 20€

LUNARESC18 "Lion Project 2.0", Ginestra Sabina, 13/07/2024-28/07/2024 MANU/CULT VOLS: 10 AGE: 18-30

SUMMARY : *Get involved in a project to clean the ancient path connecting the two villages of Monteleone and Ginestra, planting fruit trees of antique endangered species on a roof garden and making a mural together with an international group of people in the beautiful countryside near Rome! #lunarcamp #escinteam #volunteering #wearealliance*

PARTNER : P.I.U.M.A association is a new reality in Sabina region, born last year from a group of young people who, for about two years now, have been organizing ourselves to revitalize the village and, above all, to promote, within the community, the importance of being together, solidarity, respect for differences, inclusion, and active citizenship.

PROJECT : The aim of the association is rediscover and redevelop places of the village for the local community and also by seizing the opportunity to open up to the world and interculturality. The poor condition of places of common interest has stimulated the desire and will to reappropriate them. The first goal, besides the rehabilitation of these places, is to ensure the harmonious and positive integration of international volunteers into the local community; this means, creating a welcoming and inclusive environment where volunteers feel at ease and the local community can break down the walls of isolation. By joining this workcamp you will contribute to the Sustainable Development Goals: **Reduce inequality -SDG10 and SustainableCommunities-SDG11.**

WORK : Volunteers will work 5/6 hours per day, and two days of the week will be free during which they can dedicate themselves to recreational activity, entertainment, and rest. The work will be mostly in the morning because, in the afternoon during the summer, it is very hot. Volunteers will work on different tasks:

1. Ancient path connecting the two villages of Monteleone and Ginestra: also known as the path of Santa Victory. It is a path about 2,000 m long, surrounded by nature. The goal of this activity is to clean up part of the path, organizing two teams, which will start from the two villages and will meet along the way. Metaphorically, this moment represents the meeting of the two communities.
2. Food forest: last year, "Lion Project 1.0," recovered a roof garden in the center of the village of Monteleone Sabino. With "Lion Project 2.0," we want to make this place an outpost of defense of biodiversity by planting fruit trees of ancient, endangered varieties.
3. Interventions in the village of Ginestra: Over the years, ancient Italian villages made of stones and pebbles have been defaced with large works of gray concrete. Our goal is to color that grayness through

the creation of a mural, the painting of railings, the restoration of fountains, and the fixing of the driveway of the former school. All these small interventions aim to enhance again the small village, to make it more welcoming.

ACCOMMODATION AND FOOD : Volunteers will be accommodated inside the school complex, which is equipped with toilets (2 showers and 2 bathrooms) and a kitchen. There is the possibility of sharing in having two comfortable rooms for sleeping. The rooms will be provided with cots, mattresses, and pillows. They will take care of the place and cook by themselves. There is WI-FI, and there is no washing machine.

LOCATION : Ginestra is a village in the municipality of Monteleone Sabino, located in the province of Rieti, 60 km from Rome: the community is welcoming, has a strong cultural and historical tradition, is active, and offers numerous festivities, valuing its culture and traditions. The town is surrounded by breathtaking natural beauty, with its hills and views. A land rich, where the monuments and sacred places dominate.

TERMINAL : Leonardo da Vinci Fiumicino airport in Rome and then train to Fara Sabina (Passo Corese). Once you get off from the train you take the Rome-Rieti line bus and get off at the Osteria Nuova stop. Once you get off the bus you wait for a shuttle that will take you to your destination.

SPECIAL REQUIREMENTS : This project is supported by the European Solidarity Corps. Food and accommodation are covered by the European Union. Transportation costs will be refunded according to the distance band rules of the program. No fees are required. The workcamps are open for international volunteers (coming from EU ESC countries projects).

LUNAR09 "The Old Ways - Local Place and Path Care", Cevo, 17/06/2024-26/06/2024 ENVI/MANU VOLS:10 AGE: 18+

SUMMARY : *Surround yourself with nature and help the local community to maintain and conserve the mountain trails! #lunarcamp #workcamp #wearealliance*

PARTNER : Casa del Parco Adamello is a multifunctional, community place where people can meet and discuss around mountain culture. It is a space committed to territorial promotion where we can draw a path focused on enhancing potential and local resources. Here we arrange cultural events, workshops and training addressed to social innovators and people involved in mountain areas development.

PROJECT : We co-design camps together with environmental activists: side by side with the community of communities - both local and elected - and institutions, we want to contribute to Valsaviore's economic, cultural, environmental, and social development. In line with these objectives, the main purpose of this camp is to provide opportunities for concrete action in a wonderful, fragile and precious mountain context, to encourage meeting, exchange and intercultural dialogue between international volunteers and local communities. Not a secondary effect, the volunteers' activity would translate into concrete actions capable of allowing inhabitants and tourists to experience the mountains and the territory safely and without risks, making it a more welcoming, inclusive and attractive place.

By joining this workcamp you will contribute to the Sustainable Development Goals: **SustainableCommunities -SDG11, SustainableConsumption&Production-SDG12, and LifeOnLand-SDG15**

WORK : Participants will be mainly involved in cleaning and maintaining the high and medium mountain and agro-silvo-pastoral paths adjacent to the hostel, as well as supporting the activities of agricultural companies. They will also be involved in restoring the signs of the local paths and in taking care of the greenery of the large park surrounding the hostel. For the identification of the routes, obtaining permits, on-site accompaniment and assistance during the carrying out of activities relating to the paths, we avail ourselves of the support and collaboration of the Cedegolo section of the Italian Alpine Club (CAI), of the

Valcamonica Mountain Community, of the municipal administrations of Cevo and Savio dell'Adamello and finally of some agricultural companies in Valsaviore. The shifts will be 5 hours per day, for 5 days a week, excluding Saturday and Sunday.

ACCOMMODATION AND FOOD : Meals will be served mainly in the hostel with a predominantly vegetarian menu, however variations may be made to meet different needs. Where necessary, volunteers are expected to bring a packed lunch, while on other days they will have lunch together with the local community or at the farms that will host them for their tasks. Main meals are provided (breakfast, lunch, dinner); the remainder are paid by each volunteer. Participants will be hosted at the Casa del Parco hostel and accommodated in several shared rooms: each room has 4 to 5 beds, private bathroom and shower. There are several common areas, including reading rooms, a restaurant and a large outdoor garden, as well as free Wi-Fi (due to the location of the facility in a closed valley, we cannot guarantee a fast connection in case of heavy crowds) and the possibility of using the washing machine once a week.

LOCATION AND LEISURE : Cevo (province of Brescia, Italy) is a small mountain village of 800 inhabitants located inside the Adamello Regional Park, at an altitude of 1,100 m. Placed at the junction of two valleys closed by the head of Adamello glacier, it offers a barely anthropic, natural environment which counts on a reduced tourism flow. An atmosphere foreign to urban chaos where time seems to flow slowly, ideal to hike surrounded by nature. Most local people do not speak English fluently.

TERMINAL : Once you land at Orio al Serio airport (Milan Bergamo), take the transfer to Brescia station. From here, take the Trenord Brescia-Iseo-Edolo railway line and get off at Cedegolo station. Trains from Brescia to Cedegolo leave approximately every two hours. From Cedegolo station in Cevo, take the direct bus 23a, which leaves from Piazza Roma (about 500 meters after the train station) and has Cevo/Savio dell'Adamello as its destination.
