Each partner will participate in and support the follow-up activities and will contribute to establish strategies for the dissemination and use of the project's results together with their participants.

Who are we?

Oriel Association was founded in 2017 and its main office is in the province of **Verona**, Italy, but it's active all over Italy.

The **mission** of the association is to promote the active participation of young people in their local communities and to give them the chance and the tools to exploit fully their potential and to provide them a support in discovering their path and to develop their skills by using non-formal education and intercultural learning methods.

To pursue these goals we organize cultural events, seminars, workshops and study lessons. We provide several training courses in the local community and we work with different **European grants**, like Erasmus+.
