In town of Stara Zagora we work mainly with Roma children and young people. The work is not easy and not always you can see the results from the work that we are doing. But every single thing that we are doing has a big meaning and changes the atmosphere in the Romany district, where around 20 000 people are living.

The volunteers help with the following things /based on their talents, skills and willingness/

- They organize games (before and after the study room, during the biblical hours, during the vacation), different activities, camps, excursions.
- They look for the children and young people during the rest time, excursions and sport.
- They take part and take care for the order before, during and after the liturgy.
- They lead different circle rooms and workshops.
- They may suggest new activities for the children and young people, if they have will and ideas.
- The volunteers participate in the courses for young Bulgarian volunteers /animators/ that the foundation organizes /maximum 4 weekends per year/

Monday and Sunday are - free days.

Tuesday - day for planning, preparation and manual work.

The volunteer will receive 7 euro per day pocket money - as it is in the ESC program guide.

The volunteer will have 380 BGN for food per month.
