INTO THE LOOK OF DIFFERENCES

THE TRAINING WILL GATHER 20 YOUNG PEOPLES (>18 YO) SUPPORTED BY 2 TRAINERS WHO WILL PRESENT, THROUGH EXPRESSION AND CREATION WORKSHOPS, DIFFERENT APPROACHES AND DIFFERENT POINTS OF VIEW ABOUT THE RICHNESS OF OUR DIFFERENCES.

Discrimination is an action or decision that has the effect of treating a person in a negative way because of differences, whatever it may be (gender, age, disability, culture, etc.). There are various forms of discrimination, the effect of which is to exclude someone, deny them certain advantages or impose certain requirements. But the question is : do we want a world where we are all the same, or a society where difference is our strength?

By using artistic expression as a medium for healing and awareness, we want to foster an environment where participants can explore complex issues like discrimination and social barriers. The focus on inclusivity —inviting people of all artistic backgrounds—ensures diverse perspectives, enriching the creative process. Equipping participants with skills to lead intercultural workshops is a good way to extend the initiative's reach. It empowers individuals to share their experiences and insights, promoting dialogue and understanding within various communities. The combination of art and intercultural engagement can truly inspire change and build bridges between different cultures.

Through this training we aim to strengthen the role of youth organizations as actors of initiatives on collective construction and "doing together".

The training consists of two stages: initial artistic and technical training followed by hands-on creation. Facilitators will guide participants to work autonomously, emphasizing non-formal education methodologies. Key approaches include collective and creative intelligence, collaborative working, experiential learning, and reflection. Innovative and participatory methods will foster a dynamic group environment based on trust and respect. The project's impact and outcomes will be disseminated through an exhibition evening, documentary film, press coverage, and a post-training report.

WHO WE ARE ?

The association Sem&Vol, affiliated to Solidarités Jeunes, works towards :

the Voluntary participation of all in social life – at local, national and international levels, a local development respectful of the individual, the environment and cultural heritage, intergenerational, intracultural, intercultural and international meetings and exchanges, tangible peace-building actions, reflection, practices and projects in the field of environmental education in line with a sustainable development approach.

The association is also expanding the action of the National Movement of Solidarités Jeunes in the Dordogne, supporting the momentum in favour of rural life, in order to allow as many people as possible to :

- actively contribute to the development of their region (cultural heritage, heritage sites, environment, social life, ...),
- take part in national and international mobility programs (short-, medium and long-term Volunteering),
- have access to diverse cultural and intercultural practices (territory development, presence of international Volunteers, european exchanges),
- benefit from the resulting dynamic atmosphere which encourages people to get involved in other projects and actions adapted to the Périgord (the Dordogne),
- connect with people, create new openings and broaden their horizons.
