

# APPEL À PARTICIPANTS

## ActToReel

Nos échos, notre avenir

Youth exchange for teenagers 15-17 years old  
from 12 to 26 August 2025

- Experience two weeks of life in an intercultural group
- Develop your sense of initiative and discover different forms of responsible ecogestures
- Learn expressing your ideas and transforming them into a short video (reel)
- Develop your ability to work in an autonomous way

**Step 1, Share :** discover habits, traditions and ecological gestures that may or may not be good for the future and the use of social media across each country.

**Step 2, Experiment :** discover the objectives of sustainable development, environmental issues and the different techniques for creating impactful and fun reels.

**Step 3, Act :** work in sub-groups on creating reels and turn our actions into reality : ActToReel

**Step 4, Diffuse :** let's share what we've learned during these 2 weeks and spread the word of your work.

# Le Créneau - Solidarités Jeunes

## INFORMATION

### HÉBERGEMENT

Les participants séjourneront dans notre camping écologique, équipé d'installations durables telles que des douches solaires et des toilettes sèches. Ils dormiront dans une yourte, un tipi, un dôme en bois et deux tentes barnum, tous équipés de lits et de planchers en bois. Ce cadre en pleine nature offrira un environnement propice aux échanges et à la collaboration.

### VIE QUOTIDIENNE

La vie collective est au cœur du projet. En plus de travailler sur le projet journalistique, les participants contribueront aux tâches quotidiennes : préparation des repas, nettoyage des espaces communs et autres responsabilités essentielles à la vie du groupe. Cette organisation favorise l'autonomie, la coopération et l'esprit de communauté.

### PREPARATION BEFORE THE PROJECT

Before arriving, we ask you to reflect on the project's themes: environmental actions and social media. Take some time to explore the following questions:

- What eco-friendly habits and initiatives exist in your country? Are they widely practiced?
- How are environmental issues addressed on social media in your country? Are they effective in raising awareness or inspiring action?
- Do you know any content creators who use social media to promote environmental causes?

You will have the opportunity to share your insights with the group through a short presentation or discussion. This preparation will help us exchange different perspectives and create meaningful, engaging content together.

Le Créneau is one of the regional branches of Solidarités Jeunesses. It is located in a château in Montcombroux-les-Mines, in a rural area. It has been working for local **social, educational** and **cultural** development for 31 years.

The aim of our association is to **bring together people from different social and cultural backgrounds** to create a mix, learn to live and work together, get to **know each other** and share their own experiences in a spirit of **respect and tolerance**. To achieve these objectives, the young people will prepare their own menus, cook as a group, do the housework and organise their activities. Supervised and accompanied by a trained team, they will **experience interculturality**.
