

EGYESEK YOUTH ASSOCIATION
PRESENTS

CHANGEMAKER

8.0

PARTNERS' CALL

2026

INVITATION

Changemaker 8.0 is the continuation of our successful personal development training that has been running for over the past 7 years (*Changemaker, Changemaker 2, Changemaker 3.0, 4.0, 5.0, 6.0, 7.0, Next Step For Leaders*).

It is an **8-day training course** for youth leaders, volunteers, and youth professionals to challenge **self-reflection** by using self-coaching and coaching tools. The first part of the program focuses on giving models, frames, tools, and activities to reflect on the **mindsets of the participants**: attitudes, values, and behaviors and see how these mindsets influence them and the results they are getting in their everyday life, work or volunteering (both individually and in group context). The second part of the training is focusing on putting into **real-life practice** what the participants have been discovering so far (submerging through outdoor activities).

The project is for people who:

- **have experience in youth work: youth organization staff, campleaders, volunteers, mentors, youth leaders, trainers, mentors and young people involved in youth projects;**
- are at least 18 years and able to communicate easily in English;
- are willing to take part in a challenging program towards self-reflection;
- will participate fully in the programme from the beginning to the end.

Why join our project?

- support your staff members and volunteers in taking the next step in their personal and professional development
- strengthen the preparation for workcamp leaders and volunteers, facilitators and group leaders
- reinforce the resources of your organization by providing learning opportunities for youth professionals and volunteers around you.

What do we ask from our partners?

- support in finding eligible applicants from your countries, preferably from your organizations (max. 3 participants per country)
- prepare your participants by organizing an online meeting for them (with the content, Egyesek is willing to support and organize a prep meeting for partners)
- follow-up with your participants after the training (by organizing one or several meetings with them to see how they can contribute to your organization - with a special focus on the upcoming workcamp season)

Practicals

Deadline for the partners' call: 30th of January 2026

Participants' selection and preparation: February-March 2026

Training: 14-23 April 2026

(Arrival day: 14th of April, Departure day: 23rd of April)
